STATE POLICY   0901
(No. 6 March 2001)

The State Administrative Manual (SAM) §4800 through 5180 define the fundamental principles, policies, and procedures that govern the use of Information Technology in state government. SAM also places specific controls on expenditures for Information Technology activities and resources. The policies of the California Department of Forestry and Fire Protection (CAL FIRE) have been established to supplement these references, and to provide guidance and consistency in the administration of all Information Technology activities. For more information refer to this site: http://sam.dgs.ca.gov/TOC/4800/default.htm

CAL FIRE INFORMATION TECHNOLOGY
CORE POLICY STATEMENTS   0901.1
(No. 6 March 2001)

The seven core policies are listed below:

1.   CAL FIRE ITS will establish, maintain and adhere to a set of rules that define acceptable uses of technology. (Acceptable Use Policy 0910).

2.   CAL FIRE ITS will establish, maintain and adhere to a technology environment that evolves and adapts to changes in business need. (Enterprise Architecture Policy 0902).

3.   CAL FIRE ITS will establish, maintain, and adhere to a set of standards for technology products including appropriate applications and configurations. (Standards Policy *coming soon*).

4.   CAL FIRE ITS will secure its technology environment against internal and external threat. (Security Policy *coming soon*).

5.   CAL FIRE ITS will establish, maintain, and adhere to support standards for its technology environment. (Support Policy *coming soon*).

6.   CAL FIRE ITS will establish, maintain and adhere to standardized operational processes for its technology environment. (Operations Policy *coming soon*).

7.   CAL FIRE ITS will establish, maintain and adhere to standardized information technology acquisition processes. (Workgroup Computing Policy, and Control Agency Requirements, DGS, DOIT).
